

How do I Log on eLumen?

- To access eLumen, log on to MyGateway.
- There are Single Sign On (SSO) links on the Employee Tab (to the right and scroll down) and on the Faculty Tab (to the left and scroll down)

Do I use the Test or Prod Link?

- There are two links: Test and Prod
- The test site is a practice site. You can try out different types of assessment modes here. If you create a rubric and score it, it cannot be deleted. Always try out what you are doing on the test site first.
- Prod is the production site. This will contain your official assessment records that the college will use to aggregate data and provide as evidence for accreditation. **Don't use the production site until you have had some practice on the test site first!**
